

Questions for Non-Academic Support Units - Executive Summary

Section I: How will your area contribute to or support enrollment growth? What immediate resources do you need that are critical to supporting our growing campus?

Section II: How will your area contribute to enhancing student success, resilience, and experience? Please include how your area can improve student completion rates if applicable.

Section III: How will your area contribute to advancing and promoting research?

Section IV: How will your area contribute to improving career placement outcomes?

Section V: How will you leverage the successes and strengths in your areas to further the University of Utah’s societal impact while intertwining equity, diversity, and inclusion?

Section VI: Please share any plans currently underway and future plans you may have to build new buildings, conduct major renovations or upgrades to buildings or space, or enter into lease agreements for space. Give a brief summary on the need and how the space will be used (academic, research, office/admin, storage, etc.). Please detail how you plan to fund or are currently funding these projects (address the fund types you may use for immediate expenditure or to build internal reserves, fundraising plans, and debt options you are considering). If your plans include moving funds from one fund type to another (e.g., fund 1001/2500/6000 to fund 7000) you will need approval before proceeding.
